DOINGS OF UNLISTED STOCKS ON EXCHANGE

Unlisted stocks were given but scant attention vesterday; in fact, it is only once in a while that trading in the regular list slacks un enough to give brokers a chance to tackle the unlisted "outsiders." During the onen board sessions Untah Treasure Hill found a customer

Pioche Demijohn was quoted at 6c at rese 1646c. North Colorado at 5c asked, and the Tintic Mines at 20c bid.

BOSTON AND NEW YORK STOCK MARKET REPORTS

Boston. April 30.—North Butte opened strong this morning, influenced by several good-sized buying orders. Late in the day the stock lapsed into dullness, but ruled about a point above yesterday's close all through the session. Massachusetts Minling, on heavy buying, caused by good reports from the mine, is becoming heavily interested in by local people, and the stock looks better than for some time. The balance of the list was very quiet, and showed little change. The railroads and industrials in New York were very strong and, helped by the large short interest which is there, we expect to see very strong closing tomorrow.

Less true, and the ore is still at the balance of the first lot to come to the service of the first lot to come to the service of the first lot to come to the service of the service of

very strong closing tomorrow. Boston Copper Stocks.

ABOUT U. S. COMPANY Lent Tint. L. Bell

SHIPPING RICH GOLD ORE FROM CAMP OF NATIONAL

rs." During the onen board sessions
Tirtah Treasure Hill found a customer of the solution of t resentative of this paper was today given the pleasure of viewing some of the ricaest gold ore yet brought to the town. Not little pocket pieces, but large chunks of fabulously rich stuff which will make the camp famous. The ore is deposited in the bank, and one chunk weighs less than 17 pounds and contains more gold than rock. Another specimen weighs one pounds and is as rich as the former

Following is the daily market comment of Paine, Webber & Co. Boston, together with the range of prices of copper stocks and other Boston listings ' vich the west is interested, as w similar report on New York curb 1. 11880. 318, by James A. Pollock & Co., and from whom it is secured for use in this department of The Herald.

Boston, April 20.—North Butte opened

S. W. Gundaker, president of the National Mining company, returned from the camp yesterday and when questioned about this property and the wonderfully rich ore that is being sent in stated that from Feb. 1 there has been shipped from the leases on Charleston bill 1.156 pounds of ore that netted the owners \$30,000. In a few days the most important shipment of high-grade will arrive from the camp of the National. It will be brought in here in an automobile and is in the neighborhood of half a ton, but so rich that every piece would make jewelry.

F. A. HEINZE FRIENDLY WITH COLE-RYAN CROWD

Some understanding is said to have been reached between the Cole-Ryan interests reached between the Cole-Ryan interests and F. Augustus Heinze whereby they will work together, says the Boston News Bureau. "Cole-Ryan," of course, means Amaigamated. It is stated that Heinze will throw his Utah ore contracts to the International Smelting & Refining company. Heinze has extensive interests in pany. Heinze has extensive interests in Ctah and Idaho.

pany. Heinze has extensive interests in Utah and Idaho.

It was through the efforts of John D. Ryan, the managing director of the Amalgamated company in Montana, that the long and disastrous litigation with Heinze was settled, and it is not so very surprising that Mr. Ryan should be able to bring about a closer relationship with Heinze and secure his ability for the benefit of the new smelting combination.

On top of these reports is another that some Cole-Ryan experts have made an examination of the property of the Davis-Daly company in Butte, which may infer that Cole and Ryan are becoming interested in Davis-Daly. If they are, that is only further evidence of the spread of the Amalgamated-Cole-Ryan control of the mining situation in Butte.

It is also reported here, coming from ordinarily creditable sources, that the Amalgamated will eventually be found to own East Butte and Pitisburg & Montana.

MINING STOCK EXCHANGE. THE HERALD IN NEVADA.

Columbus Consolidated, Iron Blossom and Carisa Moving Up.

Iron Blossom was about the most active of the leading stocks yesterday, and its strength was in sharp contrast with its action of a week to ten days ago. Columbus Consolidated, which weakened in sympathy with the slump in Iron Blossom, as did many other stocks, is regaining its lost ground rapidly, while Carisa, on the persistent declaracions of its backer that the Colorado-Sioux-iron Blossom fissure. persistent declarations of its backer that the Colorado-Sioux-fron Blossom fissure runs into its territory, and strong support of the market, is ready to shoot over the \$1 mark again. The scare is evidently over in Mason Valley, as it should be, and the same is true of Western Nevada and Ohio Copper, each of which is behaving better.

MINE DIVIDEND CHECKS

Completion.

| Completion | Com A careful check on the rapidity with which the young operator signs the checks has been made. He averaged nine signatures a minute for some time. On Monday he signed about 1,000 checks and yesterday about 300. He expects to wind up the entire lot by tonight, although the task will keep him close to the mark with probably more than one change of pen. The checks have to be mailed on April 30.

The other signature on each check is that of A. H. Howe, the secretary, who recently finished the big job of writing his name 3,800 times. His signature straightened out, makes only about five inches, or about half that of Mr. Wingfield's.
